ABOUT THE PROGRAM

C5, in partnership with Amazon Web Services (AWS), Tamkeen & EDB will offer a unique opportunity to scale-ups (revenue generating start-ups), SMEs and selected corporations to access an array of AWS services, a global platform and a wide network of business leaders. The Cloud 10 Scalerator will provide businesses with resources to develop a cloud-based commercial strategy, enhancing their ability to innovate and to scale fast. Participants will have access to technical support and training, business mentoring, networking opportunities; enabling participants to present their growth plan to an international investor community on pitch day at the end of the three month programme.

Cloud10 is one of the first platforms in the region created to help young technology firms (B2B and B2G firms including FinTech, MedTech, EnergyTech, Internet of Things, Smart Cities, cybersecurity, etc.) to scale-up their businesses as part of a three month intensive business administration programme, with global mentors and using the cloud. Through the Cloud 10 programme C5 aims to create 300 EMEA technology champions over the next 4 years.

About C5

C5 is a technology investment group with offices in London, Luxembourg, and Bahrain. We help to scale innovative companies from across Europe, Middle East and Africa through a combination of cloud, channel partners and access to capital.

C5 believes Bahrain is an exciting, growing tech hub for the Middle East and North Africa (MENA). We are investing in Bahrain's tech sector's growth in partnership with AWS.

We run the first Scalerator in MENA to grow or scale up innovative companies with the power of cloud computing in Bahrain in partnership with Tamkeen, EDB and AWS. This is an intense programme of technology, product development and sales support. In addition we have a training academy that trains developers and technology officers to become AWS Solution Architects; a certification recently recognized by Forbes as the no.1 sought after worldwide.
